### UK Government Consults on Expanding the Cryptoasset Regulatory Perimeter

By **Alix Prentice**  
Partner | Financial Regulation

The UK Government (Treasury) has published a consultation and call for evidence on a “Future financial services regulatory regime for cryptoassets” which sets out what is being called “phase 2” of the UK’s approach to regulating crypto. This Clients & Friends Memo sets out regulatory measures to date, and discusses significant proposals for an extension of regulated cryptoasset activities.
