Given recent stresses in the global financial system and the associated high-profile bank failures, there has understandably been much attention focused on bank liquidity.

While this attention is clearly justified, the significant work to address issues surrounding prudential liquidity provisioning on foot since the global financial crisis of 2007/2008 should not be overlooked.

In this *Law360* article, we examine some of the prudential liquidity reforms implemented following the global financial crisis and the current status of the ongoing regulatory review in the UK.

We will also look at how, while the purpose of these measures is to ensure that banks create a "rainy day" fund to tap into in times of emergency, deploying these funds in times of stress is possibly easier said than done.
